Information about SCORA meet 2024

Topic	Explanation
Mission	With this project, we would like to contribute to international understanding and peacemaking in the world. We are convinced that the personal experiences of young people through encounters with people from different backgrounds can make a significant contribution to this.
Basic idea	<p>400 young people from four countries will experience diversity by being together for one week; they will learn how to explore and reflect what diversity means to them; they will join a workshop on diversity on the first day after their arrival. After that, they will join workshops on different topics according to their fields of interest. Once you have chosen your workshop you will stay there for six timeslots for the whole week. The participants remain in a stable group, which gives them the opportunity to collaborate and have fun with peers from different cultural backgrounds. Every night they will reflect this experience in their family group and ask themselves what the take-away-lesson of the day means for their personal growing.</p> <p>At the end of the week, they will show their results of the different workshops, so we will have group presentations. And we will end with a farewell party.</p>
Main targets	<ol style="list-style-type: none"> 1.) To gain a better self-awareness of how diversity and/or discrimination affects the personal life. 2.) To reflect the personal mindset and develop an even more positive attitude towards diversity. 3.) To overcome prejudices. 4.) To make new friends from different cultural backgrounds and from different countries. 5.) To improve the skills on a field of interest (workshop). 6.) To improve the presentation skills. 7.) To improve the intercultural competencies. 8.) To improve oral English skills in a multicultural environment.

Our values	<p>SCORA is a diversity friendly space. We support each other. We create a safe space for self-exploration. We empower our participants to be who they are. We want to contribute to a better future.</p> <p>We always take very well care of our guests.</p>
Our patron	<p>The patron of SCORA is the President of our Parliament in Baden-Württemberg: Ms Muhterem Aras. The patron of SCORA meet 2024 is the mayor of Stuttgart, Dr. Frank Nopper.</p>
Purpose	<p>By experiencing, exploring and reflecting diversity, the participants will gain a new understanding of how diversity affects their lives in many aspects and on different levels. They are being guided by making this inner journey of discovery. They will share what they explore, whether it is challenging or easy. The purpose is that they can integrate a new, even more positive understanding of diversity by being aware that sometimes it needs some effort. They might feel enriched and maybe they make new friends from different parts of the world, with different backgrounds.</p>
Benefit for the sending country	<p>When back home, the young people will be able to share their experiences as ambassadors on issues such as intercultural understanding and diversity in their respective environments/organizations.</p>

SCORA Family

The adolescents from the various countries will be divided into groups of eight. Each group stays together throughout the week and meets every morning and every evening. They are supervised by caregivers from Baden-Württemberg (adults we have chosen and briefed). The aim of this family group is to be a contact group for the adolescents in order to exchange information about their well-being, to clarify daily needs and to offer support. The caregivers from the family groups also stay in contact with the adult caregivers from the country delegations. In the evening, the experiences of the day are reflected within the family group, also in terms of content against the backdrop of the topic of diversity.

Workshop Phase

We will offer 20-25 different workshops from different fields, such as:

Dancing, music, sports, creative writing, history, natural science, theatre, martial arts, research in a museums lab, experiencing historical exhibitions, spirituality, and many

many more. They are led by experts. Each workshop group develops a product during the six meetings which is then presented at the closing party on Friday. Each participant can choose his/her workshop according to their field of interest.

Outing to the regions

On this day, the young people get to know a region in Baden-Württemberg. We will have 15-20 different destinations, so the pupils will be divided into new groups for this day.

Free and easy

Options: watch a movie together, do sightseeing, play games, singing: so there will always be a guided program.

Please note that this reflects the planning status of March 2023. Due to a wide variety of developments beyond our control, many things may still change until summer 2024. All information is therefore subject to developments over the next year.
